PENINSULA LINUX USERS' GROUP of the San Francisco Bay Area

The Peninsula Linux Users' Group (PenLUG) is a Linux group for San Mateo County and surrounding areas.

Schedule: Fourth Thursday of each month, 7-9 PM *(Second Thursday during November & December)* Oracle headquarters, building 100, room 104, Redwood Shores, CA

Upcoming Meetings:

Thursday, August 26, 2004
Theme: "The Future of Open Source"
Keynote speaker: Bernard Golden, author of *Succeeding with Open Source* (Addison-Wesley, August 2004), will describe the Open Source Maturity Model (OSMM), which enables IT organizations to select, assess, and implement open source products, and provide a real-world example of its application for Jboss.
Members Minutes: talk about your own views about the future of Open Source, ask for help with Linux problems, etc.

Thursday, September 23, 2004
Theme: "Interfacing with Linux"
Keynote speaker: Bill Crooke will give a presentation and demonstration on GPS (Global Positioning System) applications with Linux.
Members Minutes: talk about your own projects interfacing Linux to external systems, ask for help with Linux problems, etc.

PenLUG always welcomes new members. See our Web site, www.penlug.org, for the latest information.

Directions:

- Take US-101 to the Ralston Ave./Belmont/Marine Parkway exit.
